Improvement Advisor

October 20, 2017

CALM

Making an action plan with your practice team for the first 90 days

Objectives

- 90-day action plan
- PDSA for “next Tuesday”

The Next 90 Days: Creating Rhythm & Discipline October 20th Learning Session- January 11th Webinar

- Based on the change package elements, your knowledge, experience, office system survey results and other data that you have, what primary and secondary drivers will you focus on over the next 90 days? Notate this in the 90 Day Planning Worksheet.
 - Do you have everyone on the team that you need to do the work?
 - Is anyone missing that you need? Do you have a parent partner who can assist?
 - Do you need further clarity? (e.g., create flow map of the work, perform some observations, collect more information, etc.)
 - Identify the changes, from the change package, that you will test. What and when you might test over the next 90 days.
- Be prepared to report out your progress on upcoming calls and on the January 11th call as that will mark (roughly) the end point of the first 90 days.

Changes to Test	Required Tasks	PDSA - Measures	Person Responsible	October	November	December	January
				19 26	2 9 16 23 30	7 14 21 28	4 11 18 25

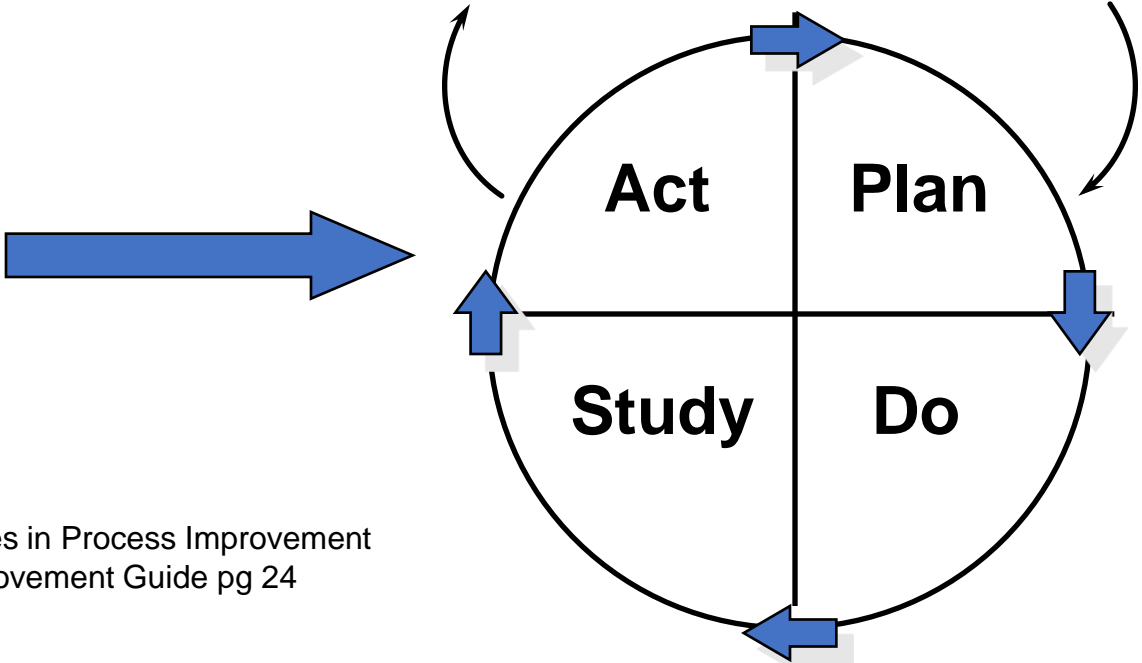

O = Projected Start Date X = Projected

Model for Improvement

Improvement yet?

“Teams often spend too much time thinking about all of the possible options, ramifications, and implementation issues before proceeding with a test of a change.

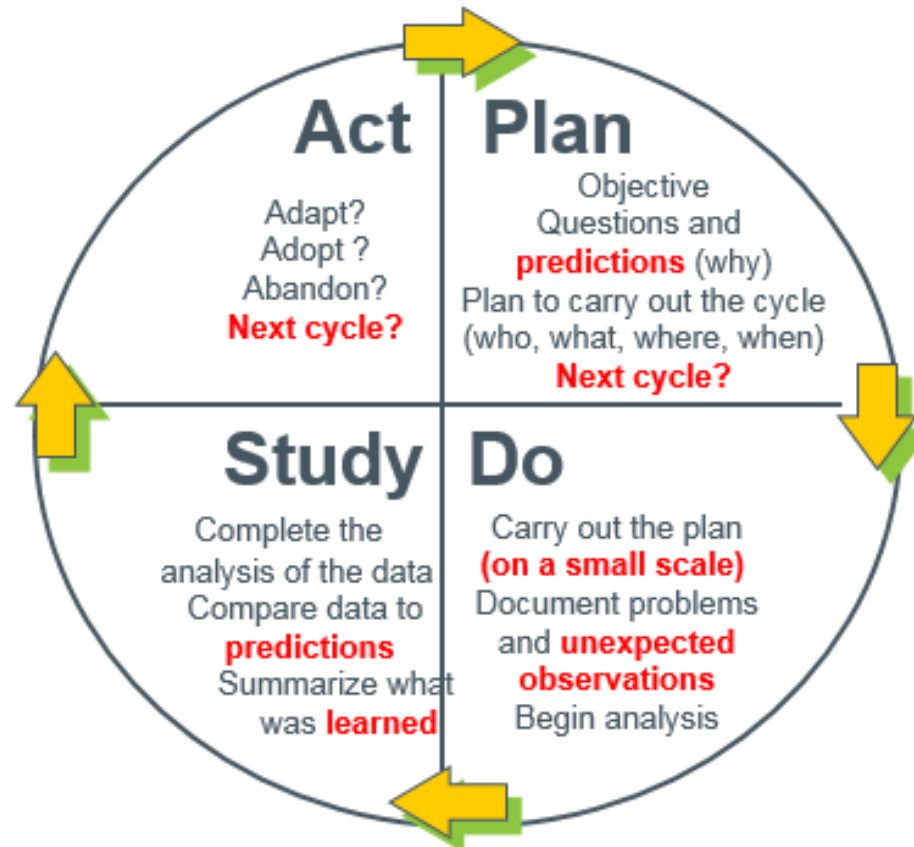

- Improvement efforts are frequently stuck in the diagnostic journey (analysis paralysis).
- The *alternative* is to very quickly run a test.
- Experience has shown this latter approach leads to accelerated learning and improvement.”

Source: The Improvement Guide

So...

- What can you test by next Tuesday??

Exercise

- Using your PDSA work sheet, develop the “Plan” for one thing that you will test by **Next Tuesday!!**
